About Me

Passionate Full-Stack Developer with experience in building modern web applications using React, Redux, JavaScript and Node.js. Completed a Software Engineering internship with hands-on experience in full-stack development using Node.js and MySQL. Strong focus on UI/UX design and creating responsive, user-friendly interfaces. Seeking an Associate Software Engineer role to contribute and grow in a dynamic team.

PROJECTS

Online Ticket Booking System – React, Node.js, MySQL
([Github](#))

- Built a full-stack ticket booking system with customer and admin panels, seat reservation, and responsive UI.

Flavor Exchange – React, Redux, localStorage ([Github](#))

- Built a recipe-sharing app with login/signup, social feed, and user account page. Features include posting, editing, deleting, and favoriting recipes with persistent storage and a modern UI.

WORK EXPERIENCE

October 2025 – March 2026
SLT-Mobitel Head Office | Lotus Rd, Colombo 01

Software Engineer Intern

- Contributed to building a Smart Spend web application using the MERN stack, focusing on both frontend and backend development
- Assisted in developing a Flutter-based Expense Tracker mobile application, implementing responsive UI and backend integration
